

AECPM Knot Challenge 2021-2022

Welcome to the AECPM Knot Challenge. Based on our observation over the past years, we see that this skill needs improvement by all of us. Those knot gurus may not always be around us, so your Executive Committee came up with a creative way to give all clubs incentives to practice knots. Together, we are encouraging all clubs to learn these (14) knots that we believe we all can use in our daily lives. As we know, until we start applying it, it may not stick.

To participate and receive monthly bonus points on your monthly report, we want each club to practice (2) knots per month starting in October – April. Each month, you must submit a video of you teaching the knots to your clubs AND then the pathfinders showing how they used it in an everyday situation.

We believe by the time the Pathfinder fair comes around in 2022, this event will be the easiest event for them to display their skills learned. 😊 We hope you and your clubs have fun doing knots this pathfinder year.

November Knots

Bowline Knot

Double Bow

December Knots

Figure 8 Knot

Surgeon Knot
